***Temporal Crash* explores the intricate relationship between time, humanity, and the concept of success. Through my paintings, I employ themes of time travel and non-linear perceptions of time to liberate the mind and envision novel ways of living and achieving success.**

Drawing inspiration from 1980s science fiction—a blend of the futuristic and the nostalgic—my concepts cascade through time, colliding with the space-age furniture designs of the 1950s and the Finnish Fetish paintings of the 1970s. Rather than replicating nostalgic visuals, I crash various timelines to craft temporal collages.

Instead of yearning for an uncertain future, I invite you to break free from the constraints of time and immerse yourself in the vibrant, timeless beauty of the present.
